

Profits From Earth

Here's an other new president
Who sits in the world government
What's his plan ?
What's his plan for environment ?
Nothing
It is always the same, no comments

REFRAIN

**While you see dollars everywhere
Some money flow's into river
In trees, you see some money there
We see our life living here**

Why we let promoters destroy ?
Who gives the power to destroy ?
Where is joy ?
Where is joy, when machines deploy ?
Nowhere
Just making richer a bad boy

REFRAIN

While you are behind your laptop
Produced by a pollution shop
Why you drop ?
Why you drop, while you could say stop
Move it
Before we are all the fucking scaup
